COMPANY ETHICS

- * Honesty and accountability by ensuring that our clients are treated with dignity and integrity at all times.
- * Quality and professionalism form a key pillar to all the company's operations. We ensure that the client enjoys the best service from our qualified professionals.
- * We deliver our services as per the agreed contract terms without delays.
- * We ensure our client's information is treated with utmost confidentiality, and no information can be disclosed to a third party whatsoever.
- * We, the ethical executives are promise keeping and trustworthy. We are candid and forthcoming in supplying relevant information and correcting misapprehensions of fact, and we make every reasonable effort to fulfil the letter and spirit of our promises and commitments.
- * We demonstrate respect for the human dignity, autonomy, privacy, rights and interests of all those who have a stake in their decisions. We are courteous and treat all people with equal respect and dignity regardless of sex, race or national origin.
- * We seek to protect and build the company's good reputation and our morale by not engaging in any conduct that might undermine respect and by taking whatever actions necessary to protect or prevent inappropriate conduct.

MISSION

Aim to be a world class engineering company providing efficient affordable sustainable and cost effective services of the highest quality.

VISION

To be a regional market leader in provision of civil engineering and building construction services.

CORE VALUES

We believe in maintaining the highest standard of professionalism, integrity creativity , positive attitude and delivery that surpass expectation while offering prompt and lasting solutions that stand the test of time.

ABOUT US

We are committed to providing the best possible construction expertise & service to ensure cost effective and successful projects.

We work closely with our clients to accurately interpret their dreams/visions in drawings and bring them to the desired reality through construction solutions to meet their needs; We communicate with our clients throughout the construction process to keep them informed of progress and to ensure that our project keeps on schedule and within budget.

OUR SERVICES

Building construction

We also pride ourselves of vast experience in the building industry where we have constructed both high-rise and low-rise residential buildings, commercial buildings and also institutional buildings.

Construction Project Management

Bewalt also offers a wide range of project management services which include but not limited to construction project planning & management, contract management, construction project supervisions and site inspections.

Civil Works

Civil works encompass a large field and as a multi-disciplined construction company, Bewalt has many years of experience in the successful execution of earthwork and concrete works. From upgrading parking lots to a concrete pavement, to the construction of various multi-storey office blocks, warehouses, factories, to the erection of portal structure's and the state of the art workshops, to name but a few.

OUR SERVICES

Project Management

From budgeting and planning to implementation, we have found that this is an area where many construction companies lack the necessary expertise. EKL works closely with local companies, providing project management support and advice, thus building and strengthening capacity within a crucial area of the construction business.

Building Construction

We also pride ourselves of vast experience in the building industry where we have constructed both high-rise and low-rise residential buildings, commercial buildings and also institutional buildings.
